## SUMMARY

I'm an informatics engineering student at STMIK Widya Cipta Dharma. I have an interest in and am currently expanding my skillset in web and Android development. While learning, I also contribute as a lab assistant at STMIK Widya Cipta Dharma so that I can further hone my technical skills and gain valuable experience in supporting students and faculty. I've led a campus event organized by Himpunan Mahasiswa Teknik Informatika called Optik 2023.

## EDUCATION

### Bachelor of Informatics Engineering

Sep 2022 - Present

Sekolah Tinggi Manajemen Informatika dan Komputer Widya Cipta Dharma

- Current **GPA 3.77**

### Natural Science

2019 - 2022

SMAN 4 Samarinda

## EXPERIENCE

### Lab Assistant, Labcom Wicida

Feb 2024 - Present

- Support the operation and success of practicum activities and setting up the necessary equipment and software.
- Help students troubleshoot common technical issues they may encounter during their practicum, such as software errors or connectivity problems.

### Staff Research and Development, Himpunan Mahasiswa

Dec 2022 - Dec 2023

### Teknik Informatika

- Assisting in Work Program Activities in the Science and Technology and R&D Division.

### Vice President, Himpunan Mahasiswa Teknik Informatika

Dec 2023 - Present

- Assisting the president in developing the organization's plans and programs to accommodate STMIK Widya Cipta Dharma Information Engineering students.
- Developing leadership among association members and provide support and guidance to members who wish to develop their leadership skills through various projects and initiatives.

### Member, Wicida Developers Community

May 2023 - Present

- As a member of the developer community, I participate in collaboration between team members and in discussion spaces for students.

## ACHIEVEMENT & CERTIFICATE

- Introduction to Android Mobile Application Development (Coursera)
- Video Editor (Badan Nasional Sertifikasi Profesi)
- UI/UX Mulia Competition Participants
